EDUCATION

PhD	North Carolina State University, Statistics Advisor: Brian J. Reich Cumulative GPA: 4.0	2022-present
MR	North Carolina State University, Statistics Cumulative GPA: 4.0	Dec 2022

COMPUTER SKILLS

Programming: R, Python

Certificate: SAS Certified Specialist: Base Programming Using SAS 9.4 (Issued May 2020)

Tools: High performance computing, Git version control, parallel computing

RESEARCH INTERESTS AND EXPERIENCES

Bayesian inference and hierarchical modeling, spatial and spatiotemporal statistics, tensor decomposition, tensor regression, surrogate modeling for computer experiment, Gaussian process, active learning, climate and environmental applications, causal inference

RESEARCH EXPERIENCE

Environmental Protection Agency, Chapel Hill, NC August 2024 to present

Oak Ridge Institute for Science and Education (ORISE) Fellow

- Advisors: Ana Rappold and Brian Reich
- Research project: A Multivariate Spectral Model with Adjustment for Unmeasured Confounders for Multiple Outcomes and Multiple Exposures
- Proposed a spectral, fully Bayesian model to adjust for spatial confounding and ensure causal interpretation of effects
- Constructed fully Bayesian MCMC algorithms in R with different priors and capacity (multivariate vs univariate outcomes) to compare model performance
- Used tensor structure so that coefficients can vary by spatial scales, exposures, and outcomes
- Implemented CP decomposition to reduce dimension of the tensor
- Used shrinkage and half Cauchy prior to encourage sparsity
- Performed extensive simulation studies
- (The tasks above started in January 2023.)
- Applied proposed model on Per- and polyfluoroalkyl substances (PFAS) data
- Visualized Geographic Information System data using R (sf, tidyverse, and ggplot2)
- Currently drafting manuscript for publication

Collaborator of Lawrence Livermore National Laboratory August 2024 to present

- Advisors: Kevin Quinlan and Annie Booth
- Research project: Active Learning with Deep Gaussian Processes for Aero Database Construction
- Examined predictive accuracy of Deep Gaussian Processes versus ordinary Gaussian Processes as surrogate models for aerodynamic data

- Devised active learning algorithms to efficiently construct aero databases in Python (scikit-learn, numpy, dgpsi)
- Created visualization of the sequential sampling process and results in Python (matplotlib)
- Presented preliminary results at conference

Lawrence Livermore National Laboratory, Livermore, CA

May to August 2024

Data Science Summer Institute Intern

- Conducted literature review on surrogate modeling, contour estimation, and active learning
- Presented at end-of-summer presentation for interns

North Carolina State University, Raleigh, NC

August 2022 to May 2024

Research Trainee at Duke Clinical Research Institute

- Helped with developing and evaluating analytic methods based on WIN statistics
- Shadowed meetings of clinical research and received training on ethics of research

North Carolina State University, Raleigh, NC

Summer 2022, July 2023 to May 2024

Research Assistant

- Principal Investigators: Natalie Nelson and Brian Reich
- Used statistical and machine learning models to analyze spatiotemporal data to examine inference about harmful algal blooms
- Data cleaning and preprocessing, data analysis, statistical modeling, manuscript drafting

Wake Forest Baptist Health, Winston-Salem, NC

2021 to 2022

Volunteer Research Statistician / Intern

- Conducted Kaplan Meier Survival Analysis and Cox Proportional Hazard Model on retrospective data of patients with glioblastoma
- Created tables and plots and help with writing and editing for publication
- Helped collect MRI images and clinical data for studies that utilize machine learning for classification

PUBLICATIONS

CONFERENCE PRESENTATIONS

Prim S., Yawen Guan, Shu Yang, Ana G Rappold, K. Lloyd Hill, Wei-Lun Tsai, Corinna Keeler, Brian Reich. “A spectral confounder adjustment for spatial regression with multiple exposures and outcomes.” Internal poster session at USEPA, RTP, NC, February 27, 2025.

Prim S., Quinlan K, Booth A. “Active Learning with Deep Gaussian Processes for Aero Database Construction.” International Conference on Advances in Interdisciplinary Statistics and Combinatorics, October 13, 2024.

Prim S. “The Utah Symphony’s 1971 Goodwill Tour in Latin America: Cultural Diplomacy during the Cold War.” American Musicological Society Southeast Chapter Spring Meeting, Furman University, Greenville, SC, March 18, 2017.

Prim S. “Maurice Abravanel and Gustav Mahler: The Reception of Early Mahler Recordings by Abravanel and the Utah Symphony Orchestra.” American Musicological Society Southeast Chapter Spring Meeting, University of North Carolina at Chapel Hill, NC, February 23, 2014.

AWARDS

B. B. Bhattacharyya Excellence Award	2023–2024
North Carolina State University, Department of Statistics	

OTHER EDUCATION

PhD	University of Iowa, Musicology Dissertation: “Maurice Abravanel and the Utah Symphony’s Performances and Recordings of Gustav Mahler’s Symphonies (1951–1979)” (Advisor: Nathan Platte)	May 2016
MM	Florida State University, Musicology Thesis: “Gustav Mahler’s <i>Das Lied von der Erde</i> : An Intellectual Journey across Cultures and Beyond Life and Death” (Advisor: Douglass Seaton)	May 2009
MM	University of North Carolina at Greensboro, Saxophone Performance	May 2006
MA	University of North Carolina at Chapel Hill, Comparative Literature Thesis: “Music-Myth into Comedy: How Shaw Used Wagner to Transform Mozart’s Legend” (Advisor: William Harmon)	May 2004
BA	National Chiao Tung University, Foreign Languages and Literatures	June 2000
